

As a former broadcaster myself, I feel compelled to write to and urge you to reject the NAB's petition 04-160. With broadcasting companies like Clear Channel and others stealing our airwaves it is refreshing to hear the programs on XM Radio.

In a time when large companies, who own hundreds of stations around the country, can do things like force stations to not play certain groups because of their rightful opinions we need an alternative, XM and Sirrius provide whats missing for consumers like myself. As such I must remind you, you are elected officials, I will NOT cast my vote for any person, regardless of party, who supports this petition. The airwaves belong to us all not our government!

Respectfully,
Robert Cooley
